

I, Shaurya Raj Singh, joined FIITJEE South Delhi Centre in 2013 when I was in class VIII and then for the session 2014-18, I joined FIITJEE Four Year Classroom Program in class IX. I wasn't enrolled in any other centre of any other institute.

The classroom environment was perfect for learning. The competition was healthy and the teachers put in their best efforts to make the concepts clear. Whenever any student faced any doubt, the teachers tried to clear it by giving the most easily understandable explanations. We also received constant motivation and guidance from the faculty members everytime we couldn't perform to our potential.

The testing system was brilliant; regular quizzes, phase tests, topic tests and AITs provided us with a platform to know our standing (both at the national and centre level). These also renewed our zeal and gave us a reason to do well. The study material provided was concise and really helpful.

In my five years of IITJEE preparation, I also cleared KVPY, NTSE and JSTSE. I am thankful to FIITJEE for my success as it nurtured my talent and made me what I am today.

Thank You FIITJEE!

Shaurya
